

Blue Snowball Microphone

The Blue Snowball mic is a great recording tool for beginners. Its simple setup only takes a few minutes and the mic is USB compatible. Check out this short tutorial on how to set up the Blue Snowball Mic so you're ready to record.

- 1.** Attach the microphone to the stand by gently screwing the base into the bottom of the microphone.

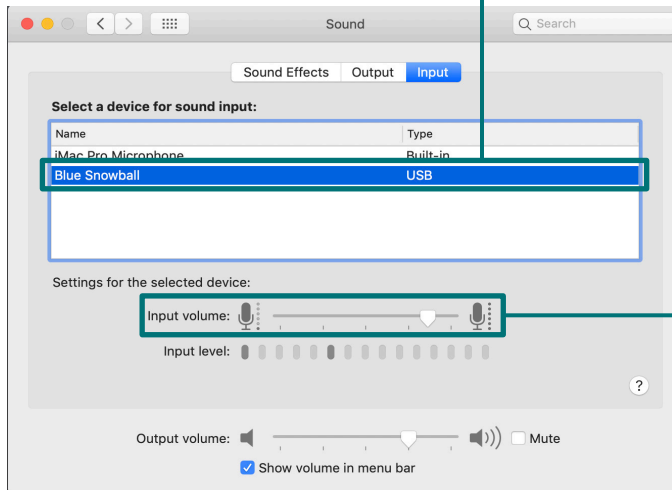

- 2.** Plug the small end of the USB cord into the back of the microphone. Plug the other end of the USB into your computer.

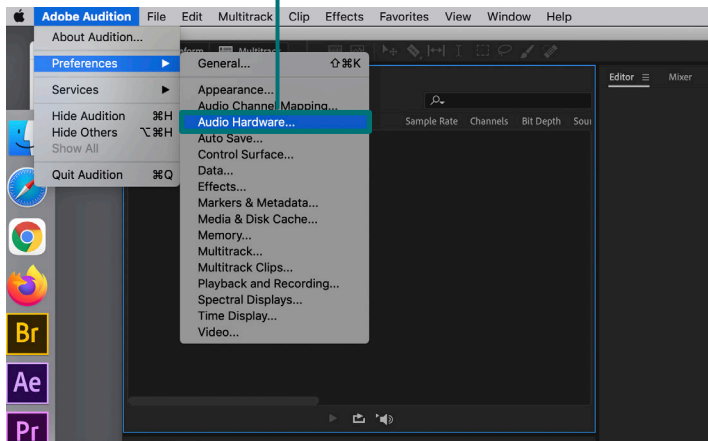

- 3.** Open System Preferences on your computer and select the sound icon.

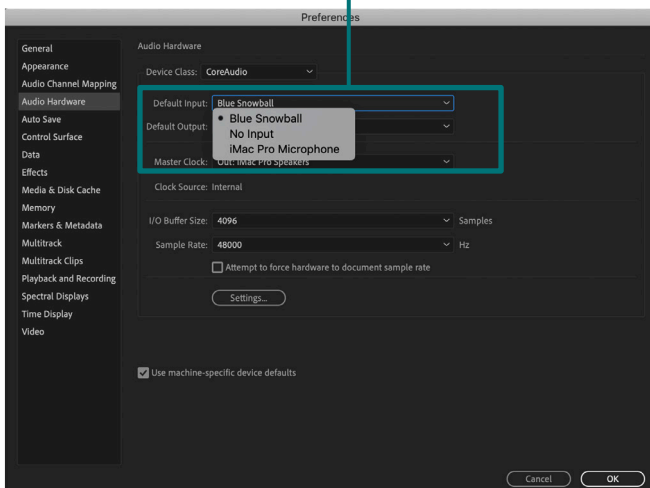

4. Select the Input tab and click **Blue Snowball**. Set the input level to 80% using the slider on the bottom.

5. Open your recording software. This tutorial uses Adobe Audition. Go to **Adobe Audition>Preferences>Audio Hardware...**

6. Set your default Input microphone to **Blue Snowball**. Press OK.

7. Go to **File>New>Audio File...** Hit record to start creating.
